

Bitwise Operations

• ~~If I want~~

• ~~If~~ I want to put the opencv logo on an image.

→ If I add two images, it will change color.

→ If I blend it, It will get a transparent effect.

→ But I want it to be opaque (adiparo)

Page 91

Modify image colors

`img_gray = cv2.cvtColor(img, cv2.COLOR_BGR2GRAY)`
